## PROFILE

Being creative and organized are a few aspects of mine that come naturally and have urged me to fall in love with Web Developing.

Independent as well as finding it easy to adjust alongside all types of people, makes me comfortable to work with. My desire to problem-solve keeps me motivated to work on projects until the end-result meets expectations.

Re-schooling myself to become a web developer has been one of the best decisions I've taken in my life and I'm eager to prove myself to become a proud and loyal employee of your company.
